

These are the draft minutes of each Annual General Meeting that I have records for. They are draft minutes because they have been issued after the meeting concerned for ratification at the next meeting. It is therefore necessary to check the minutes of the following meeting to ensure that no revisions were made. As far as I can tell each set of minutes are the ones considered at the subsequent meeting. This takes into account my practice of issuing the first draft as soon as possible after each meeting while the events are fresh in delegates minds.

I have used the date of the meeting in the file names to force them to display in chronological order. The date is therefore in American format (year, month, day).

If anyone has a copy of the minutes of a meeting that's missing from this folder please pass it to me (or my successor in due course). Please remember that we were unable to meet in 2020 or 2021 so there are no entries for those years. It must also be added that I have no original record of the 2015 meeting so have recovered it by using OCR software and a printed copy of the 2016 booklet. Whilst I've tried to make it presentable the layout is by no means identical to that originally published.
